The editorial and review procedures in *Nature* journals

In the talk, Rachel will talk you through the topics covering introduction to *Nature* and *Nature* journals, the recent situation of science journals, the editorial criteria of *Nature* journals, and the editorial and review processes involved in *Nature* journals. At the end of the talk, you will get to know the recent statistics of *Nature* journals, what editors generally seek for from papers, common reasons for rejections, what happens to your paper after submission, how your papers are reviewed, how to review a manuscript and how to make an appeal.

Rachel Pei Chin Won

Biography

Before joining *Nature Photonics*, Rachel worked for Aston University’s Business Partnership Unit in Birmingham, UK, as a research commercialization officer commercializing research output of the university, particularly that of photonics research. She obtained her PhD in microwave photonics and nonlinear optics as a member of Aston’s Photonics Research Group. Prior to that, she worked for Philips Optical Storage in Singapore as an Optics Engineer. She holds a Master’s degree from Nanyang Technological University of Singapore doing research in optical fibre sensing and a Bachelor’s degree from the National University of Malaysia.
